

The diagram shows a rectangular sign layout with rounded corners. It features several concentric boundaries: a solid pink outer line, a dashed blue inner line, and a dashed green line just inside the blue one. Four green dots are positioned at the corners of the dashed green line. Arrows point from text boxes on the left to these boundaries. The text boxes are: 'Type / artwork safe area' pointing to the dashed blue line, 'Finished trim size' pointing to the pink line, 'Eyelet Placement' pointing to the dashed green line, and 'Print including bleed' pointing to the pink line. The bottom left corner contains the Signage HQ logo and contact information.

Type / artwork safe area

DASHED LINE indicates type safe area.
Ensure ALL text and logos are confined within.
Any important text or graphics outside may be lost.

Finished trim size

PINK line indicates finished trim size.
(100% scale)

Eyelet Placement

GREEN dot indicates eyelet placement.
(100% scale)

Print including bleed

RED exterior line indicates the bleed.
Bleed all artwork and colours to this line.
20mm bleed around perimeter.
